4CCOND/CA V.1

4CYTE™ for Dogs and Cats is a premium nutritional supplement used to aid and actively maintain joint health. Safe to take long-term, it:

- ✓ Helps maintain suppleness so pets continue to jump, run and play.
- ✓ Provides nutrients to support healing after a joint injury or surgery.
- ✓ Maintains healthy joints at any stage of life.
- ✓ Boosts the body's ability to meet performance and recuperation demands in athletic and working dogs.
- ✓ Targets the joints directly helping to maintain metabolic homeostasis and normal physiological function.

In high-risk, large and giant breeds, **4CYTE™** for Dogs and Cats may also be used from 6 months of age as a support measure during their growth phase.

Feeding rate

A 100g bag of **4CYTE™** lasts approx 124 days on a maintenance volume for a dog weighing between 11 and 20kgs (23-44lbs). See Table below.
