## MANAGING DISCOMFORT AND YOUR PET

MANAGING DISCOMFORT

### CAUSES OF DISCOMFORT

- **Aches, Pains and Stiffness due to age**
- **Joint Issues**
- **Chronic Health Issues**

We all know too well what it feels like to be in pain, discomfort or just not feeling well! Our pets know it too but are at a loss to tell us....or maybe they don't want to and just put up a "brave front"? Most dogs and cats do a very good job at concealing their discomfort and pain.

### Aventi Synergy

was designed for just these times! When you know your friend is hurting and you wish there was something you could do for them so they feel better!

**Aventi Synergy** is a safe, effective nutritional supplement composed of ingredients that have been shown to decrease: the general aches, pains and stiffness of aging; the discomfort associated with joint issues; and the chronic pain involved in long-term degenerative conditions.

**Aventi Synergy** can help your pet feel better - both physically and emotionally!

### A SOLUTION TO HELP MANAGE DISCOMFORT

# Aventi

## SYNERGY

A synergistic formulation including ***Cannabis sativa***, ***Boswellia serrata*** and **MeloFeed®** for dogs and cats with a variety of painful and disabling conditions!

Melon extract
