

NexGard®

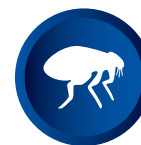

MIGHTY TASTY.

Powerful tick and flea protection
that's easy to give and easy to love.

Ticks

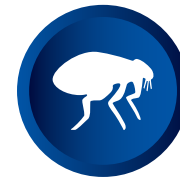

Fleas

NEXGARD® PROTECTS YOUR DOG FROM THE MOST COMMON EXTERNAL PARASITES.

TICKS

- **Protects against the most common tick species in Canada:**
 - Blacklegged (Deer) tick (*I. scapularis*)
 - American Dog tick (*D. variabilis*)
 - Lone Star tick (*A. americanum*)
- The Blacklegged tick can spread Lyme disease to dogs and humans.

FLEAS

- **Protects against fleas and flea eggs all month long.**
- Effective flea control is an essential part of preventing tapeworm infections.

For added protection against **internal parasites**, ask your veterinarian about combining NexGard® with **HEARTGARD-30® Plus**.

EASY TO GIVE, EASY TO REMEMBER.

NexGard® is a tasty, beef-flavoured soft chew that your dog will love.

NexGard® can be given with or without food, any time of the day.

Unlike some sprays, spot-ons and collars, NexGard® is not affected by bathing, shampooing or swimming.

NexGard® contains no animal meat protein and is safe for most dogs with meat-based protein allergies.

NexGard® fits into your family routine.

Since NexGard® is given just once a month, it's easy to remember. The **PetCare app** can help make your dog's treatment routine even easier.

START AND STAY WITH NEXGARD®.

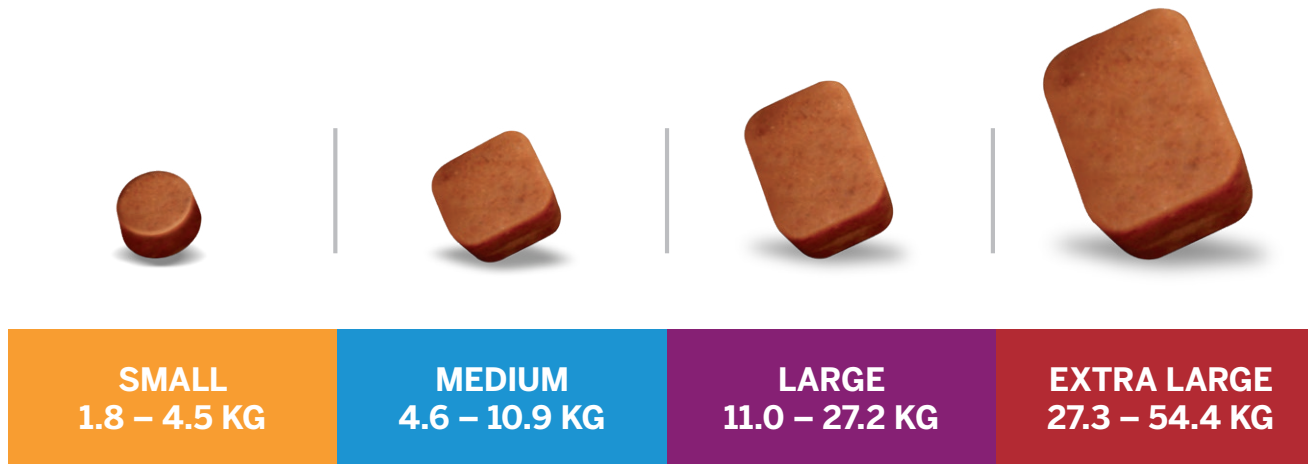

**Strong enough for the biggest breeds.
Safe enough for puppies.**

NexGard® has been tested in a wide variety of dog breeds, and in puppies as young as 8 weeks of age.

NexGard®

WHICH CHEW ARE YOU?

There's a NexGard® for dogs of all ages and sizes.

NexGard® can be started in puppies as young as 8 weeks of age, and continued for a lifetime. As your dog grows, your Veterinarian can help pick the best dose to keep your dog fully protected.
