

NexGard  
SPECTRA™

# ONE AND DONE™

The first **once-monthly** soft chew to protect against all of the following:

Ticks

Fleas

Intestinal  
worms

Heartworm

Lyme  
disease

# EVERY SEASON IS PARASITE SEASON.

**Ticks** can be active whenever the temperature is above freezing ( $0^{\circ}\text{C}$ ).

---

Some **intestinal worm** eggs can survive in the environment at ANY temperature.

---

**Lyme disease** can be spread when ticks become active.

---

**Heartworm** can be spread by mosquitoes whenever the temperature is above  $+14^{\circ}\text{C}$ .

---

**Fleas** are active above  $+13^{\circ}\text{C}$ , but can live year-round indoors.

# PROTECT YOUR DOG INSIDE AND OUT.

## EXTERNAL PARASITES & DISEASES

### TICKS

- Treats and controls the most common tick species in Canada:
  - Blacklegged (Deer) tick (*I. scapularis*)
  - American Dog tick (*D. variabilis*)
  - Lone Star tick (*A. americanum*)

### LYME DISEASE

- Helps reduce the risk of Lyme disease, which is spread by the Blacklegged tick.

### FLEAS

- Treats and controls fleas and flea eggs all month long.

## INTERNAL PARASITES

### INTESTINAL WORMS

- Treats and controls a broad range of intestinal worms:
  - Roundworms
  - Hookworms
  - Whipworms

### HEARTWORM

- Prevents heartworm infections that can be deadly to dogs.

# EASY TO GIVE, EASY TO REMEMBER.

**NexGard SPECTRA™ is the tasty,  
beef-flavoured soft chew that  
dogs prefer most.\***

NexGard SPECTRA™ can be given with or without food, any time of the day.

Unlike some sprays, spot-ons and collars, NexGard SPECTRA™ is not affected by bathing, shampooing or swimming.

NexGard SPECTRA™ contains no animal meat protein and is safe for most dogs with meat-based protein allergies.

**NexGard SPECTRA™ fits  
into your family routine.**

Since NexGard SPECTRA™ is given just once a month, it's easy to remember. The **PetCare app** can help make your dog's treatment routine even easier.
