

# FOOD ELIMINATION TRIAL

## TIPS TO ENSURE THE BEST RESULTS

Please feed the recommended ROYAL CANIN® diet for 8 weeks, or as directed by your veterinarian, and follow the tips below.

Do not use any treats, flavored medication, supplements or dental products unless approved by your veterinarian.

Ensure that members of the family (including well-meaning neighbors) understand the risk of feeding snacks to your pet.

Wash your pet's bowl and measuring cup with soap after every meal, and rinse thoroughly.

If your pet loves snacks, a small amount of his/her ROYAL CANIN® food can be used as the treat. ROYAL CANIN® Hydrolyzed Protein treats may also be appropriate. Use only as directed by your veterinarian.

Keep a separate bowl and measuring cup for each pet's food.

Keep the bag of ROYAL CANIN® food sealed between meals and store it in a clean, dry place. For added protection, place the bag inside a sealed container, but do not pour the food out of the bag into the container to prevent contamination.

Do not leave any remaining food out between meals to prevent snacking from other pets' bowls.

Wash your hands before handling your pet's food.

**You have an appointment to follow up on how your pet responded to a food elimination trial prescribed by your veterinarian.**
